Downey Specific SAFE Training Part 3
Topics Covered

1. Emergency Codes
2. MCN Policy Manager
3. Safety Data Sheet (SDS) Access
Kaiser Permanente
Downey Medical Center

2017
Emergency Codes Conversion
The Hospital Association of Southern California (HASC) initiated a project to standardize emergency codes.
In 1999, there was a hospital shooting with 3 employees killed!

What went wrong?

- Code gray was paged because a code did not exist for a person with a weapon
- Staff ran to the incident without knowing the danger!
Purpose

Hospital emergency codes are used to alert staff in a myriad of emergency situations.
Why Standardize?

- Today’s healthcare workforce is highly mobile
- Codes that trigger an emergency response should be standardized to help ensure quick action.
Our goal is to standardize our emergency codes, in conjunction with all California hospitals and other Kaiser Permanente SCAL Medical Centers.
## New Emergency Codes

<td>Internal Disaster / External Disaster</td>
</tr>
</tbody>
</table>
Code Red: Fire

Purpose:
To provide an appropriate response in the event of a suspected or actual smoke condition or fire in order to protect life, property and vital services.
Purpose:
To provide an appropriate response to a suspected or imminent cardiopulmonary arrest or a medical emergency for an adult patient.
Code White: Pediatric or Neonatal Medical Emergency

Purpose:
To provide an appropriate response to a suspected or imminent cardiopulmonary arrest or a medical emergency for a pediatric or neonatal patient.
Code Pink: Infant Abduction

Purpose:
To provide an appropriate response in the event of the abduction, or attempted abduction of an infant from the facility.
Code Purple: Child Abduction

Purpose:
To provide an appropriate response in the event of the abduction, or attempted abduction of a child from the facility.
Code Yellow: Bomb Threat

Purpose:
To provide an appropriate response in the event of a bomb threat or the discovery of a suspicious device.
Code Gray: Combative Person

Purpose:
To provide an appropriate response to situations involving combative or potentially combative person(s).
Purpose:
To provide an appropriate response in the event of an incident involving a person with a weapon or who has taken hostages within the facility (includes an “active shooter” incident).
Purpose:
To provide an appropriate response to an actual or suspected hazardous material spill or release in a manner that is safe for staff, patients and visitors.
Purpose:
To provide an appropriate response in the event of a missing/eloping patient who is determined to be a danger to themselves or is identified as a safety risk.
Purpose: To activate the organization’s Emergency Operations Plan (EOP) in response to an event that has occurred within the facility.
Purpose:
To activate the organization’s Emergency Operations Plan (EOP) in response to an event that has occurred outside the facility that has, or is likely to disrupt the facility’s normal operations.
Code “C”

Purpose: To provide an appropriate response if there is suspicion or evidence of fetal distress requiring the need for an emergency cesarean section.
Purpose: To provide an appropriate response if there is a patient showing signs and symptoms of septic shock.
Code Stroke

Purpose:
To provide an appropriate response if there is a patient showing signs and symptoms of a stroke.
Purpose:
To provide an appropriate response if there is a patient showing signs and symptoms of Myocardial Infarction.
Purpose: To provide an appropriate response if the hospital at patient capacity.

Let’s do a knowledge check!
Knowledge Check

CODE RED

A. Bomb Threat

B. Smoke Condition or Fire

C. Hazardous Material Spill/Release

D. Cardiopulmonary Arrest or Medical Emergency for an Adult Patient
Knowledge Check

**CODE BLUE**

A. Bomb Threat

B. External/Internal Emergency

C. Hazardous Material Spill/Release

D. Cardiopulmonary Arrest or Medical Emergency for an Adult Patient
Knowledge Check

CODE YELLOW

A. Bomb Threat

B. Smoke Condition or Fire

C. Hazardous Material Spill/Release

D. Cardiopulmonary Arrest or Medical Emergency for an Adult Patient
Knowledge Check

**CODE ORANGE**

A. Bomb Threat
B. Smoke Condition or Fire
C. Hazardous Material Spill/Release
D. External/Internal Emergency
Knowledge Check

CODE PURPLE

A. Combative Person
B. Fleeing Patient
C. Child Abduction
D. Infant Abduction
Knowledge Check

CODE GRAY

A. Combative Person
B. Injured Person
C. Child Abduction
D. Person with a Weapon/Hostage
Knowledge Check

CODE SILVER

A. Combative Person
B. Person with a Weapon/Hostage
C. Child Abduction
D. Injured Person
Knowledge Check

CODE PINK

A. Neonatal Medical Emergency
B. Infant Abduction
C. Fleeing Patient
D. Child Abduction
Knowledge Check

CODE WHITE

A. Pediatric & Neonatal Medical Emergency

B. Injured Person

C. Infant Abduction

D. Baby is Born
Knowledge Check

CODE TRIAGE

A. Combative Person
B. Bomb Threat
C. Pediatric Emergency
D. External/Internal Triage
Knowledge Check

CODE “C”

A. Infant Abduction

B. Fetal Distress / Emergency C-Section

C. Pediatric Emergency

D. External/Internal Triage
Knowledge Check

CODE SEPSIS

A. Patient Elopement
B. Adult Medical Emergency
C. Septic Shock Patient
D. Hazardous Material Spill / Release
Knowledge Check

CODE STROKE

A. Stroke Patient
B. Septic Shock Patient
C. Adult Medical Emergency
D. Pediatric/Neonatal Medical Emergency
Thank You!
MCN Policy Manager
What is MCN and Where to Find it

- MCN is Kaiser Permanente Downey Medical Center’s online system for all of our policies and procedures
- This site will let you view and read through all the policies for Downey Medical Center
- Depending on your role and your department you may be asked to take competencies regarding some of the policies using the MCN system
- When you open up Internet Explorer, go to the Downey Gateway Page
How to Access MCN

Once you click on the link it will take you to the MCN Policy Manager Site
How to find a specific policy within MCN

- To find a specific policy you can search it directly in the search bar in the top right hand corner.
- You can search by the name of the policy or by the policy number.

This system searches for the policy number as a full number so if you are searching for policy 1234.00 you must type in 1234.00 into the search bar if you type in 1234 the policy you are searching for will not appear.
Browsing Manuals

- Browse manuals will let you see all the policies within the system, you will see this option on the left-hand side of your screen.
Browsing Manuals

- Policies categorized into two different sections: Departmental and Medical Center Wide
- If you are looking for a policy that pertains to just your department then you want to look for Policies - Departmental

Once you click on this manual you will see the list of department manuals and can click on the department manual that you are looking for.
If you are looking for a policy that pertains to the whole medical center or multiple departments you want to look in the Policies - Medical Center Wide manual.

Once you click on this manual it will take you manuals that contain Medical Center Wide policies. These policies are organized by subject type, so for example: if you are looking for a Medical Center Wide policy that has to do with working with a patient, you would click on the Direct Patient Care manual.
How Login to MCN

- To log-in to the system once you open the home page the login button is on the left hand side of the site.
- If you need to complete a competency on a specific policy you will have to log-in to the system.

Welcome to the Kaiser Permanente Downey Policy Manager!

Click on "Browse Manuals" on the left to view Medical Center Wide and Departmental Policies.

You can also put a topic into the search box on the top right corner to search for specific policies.

If you have any questions or concerns regarding policies, please email p&p-dwny-scal@kp.org.
How to Login to MCN

- Once you click Login the system will take you to the login screen
- Your username is your NUID
- If this is your first time logging in, your password will be password (lowercase), the system will then prompt you to create your own password
Competencies

- If you need to complete competencies
- All of your competencies will be under your competencies tab on the left-hand side, once you click on this it will list all the policies you have a competency for.
Lippincott’s Nursing Procedures and Skills

If you are looking for the Lippincott’s website, it is located in its own manual under browse manuals, view the document and the link is embedded within it.
If you have any questions please contact:

Dora Ratcliff  
Accreditation and Licensing Director  
(562) 657-4472  
Dora.A.Ratcliff@kp.org

Roseanna Edwards  
Project Manager  
(562) 544-0718  
Roseanna.Edwards@kp.org

Heather Haney  
Associate Staff Specialist  
(562) 657-4597  
Heather.Haney@kp.org
Question 1

True or False: If I need to find the MCN Policy Management Website I can just search it in the search bar.
Question 2

If I am searching for **Policy 1111.00 How to use MCN** what should I put into the search bar?

A. How to use MCN
B. 1111
C. 1111.00
D. A and C
E. All of the above
Question 3

When I am logging into the MCN Policy Management System for the first time what is my username and password?

A. Username: My Name
   Password: password (lowercase)

B. Username: NUID
   Password: I create my own

C. Username: NUID
   Password: password (lowercase)

D. Username: My Name
   Password: I create my own
Safety Data Sheets (SDSs)
Safety Data Sheets (SDSs)

- SDSs (Formerly known as Materials Safety Data Sheets or MSDSs) provide important information about the chemicals you work with such as
  - Product/Manufacturer information
  - Physical/chemical properties
  - Health hazards
  - Personal protective measures
  - Spill cleanup and disposal information

- It is important for you to know this information prior to working these chemicals

- In the event of a chemical exposure, SDSs are needed to provide the appropriate information to treat the injured employee and minimize the effects of exposure
How to find Safety Data Sheets in MCN

- Browse Manuals in MCN
- Select Safety Data Sheets (SDSs) – Formerly known as MSDSs
- Follow the links until you reach the this screen
- Select SDS
How to find SDSs – Cont’d

- Enter the name of chemical in the search box next to the Red X
- Click the Search Button
How to find SDS – Cont’d

- Find the appropriate SDS by product name and manufacturer
- Select the blue icon next to the product name
View, save or printout SDS as needed
