Step 4: MyCCPS Information

Rotation Type *

Nursing - Cohort

Program Type *

BSN

Graduation Date *

20 Nov 2025

Terms & Conditions

After you have registered, please notify the Clinical Placement/Document Team at nursingdocs@fullerton.edu. Then wait for the Clinical Placement Team to confirm that your account has been assigned to your placement site before uploading any facility documents.

Note: After creating your account, you will see 30–40 listed requirements. **These are general CCPS requirements and do not need to be completed.** St. Joseph, St. Jude, and Mission Hospital only require three facility-specific documents.

6 Once you've been placed and notified, log into CPPS and click the **Incomplete** bucket. Upload all the facility required documents and health records.

Periodically check back in to ensure every document has been approved and moved into the **Completed** bucket. You are not cleared until every requirement has been moved into the green bucket.
