

## **Nova Glucometer Competency Validation for Instructors**

**Step 1:** Clinical Instructors need to watch the video in the link below. Please note that you cannot 'fast forward' through the module to get to the test because this will cause you to be marked as incomplete.

<https://www.brainshark.com/novabio/StatStripNG?t=KC1301>

**Step 2:** Print the completion certificate.

**Step 3:** Once you have completed the module, contact Amber Furlow (afurlow@hs.uci.edu) or Debbie Limb (dlimb1@hs.uci.edu) to schedule a time and date to come into the UCI Health - Los Alamitos Education Department for a 30-minute competency validation before the first day of the requested start date of your clinical rotation. Bring the completion certificate from the video with you.

**Note:** The competency will need to be completed again six months after the initial competency then again on the anniversary of the initial competency.
